POLITICAL DEPARTMENT.**Political.****NOTIFICATIONS.**

No. 14695P.—29th June 1932.—In exercise of the powers conferred by section 10 of the Bengal Criminal Law Amendment Act, 1925, and in supersession of the rules contained in this Government notification No. 332P., dated the 15th January 1931, the Governor in Council is pleased to make the following rules:—

Rules.**Time and place of sitting.**

1. The Commissioners may sit for the trial of any offence cognizable by them at such times and places as may be convenient.

Appointment and powers of President.

2. (a) The President of the Commissioners shall be such one of the Commissioners as the Local Government may nominate in this behalf.

(b) The President shall determine the times of sitting, shall pronounce the orders and judgment of the Commissioners and shall have power to regulate all matters incidental to any trial before the Commissioners. The record of the evidence shall ordinarily be made by the President, and the judgment shall ordinarily be written by, or from the dictation of, the President. The judgment shall be signed by all the Commissioners before delivery.

(c) All or any of the duties specified in subsection (b) may, with the consent of the President, be performed by either of the other Commissioners.

Issue of processes.

3. (a) All letters, requisitions, warrants, notices and other processes issued by the Commissioners shall be issued over the signature of the President, or failing him, over that of any one of the Commissioners.

(b) The Commissioners shall be entitled to use either their own seal or the seal of the District Magistrate of the district in which the Commissioners are, for the time being, sitting.

(c) All processes for attendance of witnesses or production of documents, papers or things, and all requisitions for records shall issue in the same way as if the trial were before the Sessions Court of the district.

(d) Applications for processes and for requisitions before the commencement of the trial shall be made to a Magistrate of the first class in the district where the trial is to be held, and such Magistrate shall have power to issue processes and requisitions which will be returnable before the Commissioners.

Absence of Commissioners.

4. (a) In the absence of any Commissioner, the trial shall be adjourned for such time as the remaining Commissioners shall consider reasonable.

(b) In the event of the likelihood of a prolonged absence of any Commissioner, the Local Government may appoint another Commissioner in his stead, and when the Commissioner so appointed takes his seat, the trial shall be resumed from the point at which it was interrupted:

Provided that upon such resumption the Commissioner so appointed may require that the witnesses or any of them shall be re-summoned and re-heard. Any witness so recalled may be examined at any stage of the case.

Joinder of charges.

5. When a person is accused of more offences than one, and the Commissioners are of opinion that the offences are such that they should be tried together, then the said person may be charged with and tried at one trial for every such offence.

Charge to be read and witnesses to be examined.

6. When the accused appears or is brought before the Commissioners, the charge, if a charge has been already framed, shall be read out and explained to the accused, and he shall be asked whether he is guilty of the offence charged or claims to be tried. If the accused pleads guilty, the plea shall be recorded and he may be convicted thereon. In cases where no charge has already been framed, and in cases where a charge having been framed, the accused refuses to, or does not, plead, or claims to be tried, the prosecutor shall state briefly the particulars of the offence with which the accused is charged, and the evidence by which he expects to prove the guilt of the accused. As the evidence of each witness for the prosecution is concluded, the accused shall be given an opportunity of cross-examining him, and after such cross-examination (if any) and re-examination (if any) the Commissioners may discharge the witness, and the accused shall not recall for further examination or cross-examination any witness so discharged, except with the consent of the Commissioners and subject to such conditions as they may impose.

Framing of charge.

7. When the evidence of all the witnesses for the prosecution has been taken, or at any previous stage of the case, the Commissioners shall, in cases in which no charge has already been framed, if they are of opinion that there is ground for presuming that the accused has committed any offence, frame in writing a charge against the accused. The accused shall thereupon be asked to plead to the charge, and if he pleads guilty the plea shall be recorded and he may be convicted thereon.

Accused to give list of witnesses.

8. As soon as the charge is framed, or, in cases in which a charge has been framed before the commencement of the trial, at such stage as the Commissioners may direct, the accused shall be required at once to give, orally or in writing, a list of the persons, if any, whom he wishes to be summoned to give evidence in his defence.

Power of Commissioners to refuse to summon witnesses.

9. If the Commissioners think that any witness is included in the list for the purpose of vexation or delay or for defeating the ends of justice, the Commissioners may require the accused to satisfy them that there are reasonable grounds for believing that the evidence of such witness is material, and, if they are not so satisfied, may refuse to summon the witness (recording their reasons for such refusal), or may, before summoning him, require such sum to be deposited as they think necessary to defray the expense of obtaining the attendance of the witness and all other proper expenses.

If any inquiry preparatory to commitment has been held, the provisions of section 288 of the Code of Criminal Procedure shall be applicable.

Evidence of witnesses.

10. It shall not be necessary to read over to any witness the evidence given by him at the trial.

Absence of accused.

11. (a) If any accused person at any stage of the proceeding is prevented by illness or other cause from being present, the Commissioners may direct that he be allowed to appear in Court by a pleader, and the trial shall thereupon proceed notwithstanding the absence of the said accused person.

(b) If, in the opinion of the Commissioners, any accused by his voluntary act has rendered himself incapable of appearing before them or resists his production before them or behaves before them in a persistently disorderly manner, or in any other way wilfully conducts himself to the serious prejudice of the trial, they may, at any stage of the trial, after recording their reasons, dispense with the attendance of such accused for such period as they may think fit and proceed with the trial in his absence.

(c) Where a plea is required in answer to a charge from an absent accused whose attendance has been dispensed with under rule 11 (b), such accused shall be deemed to plead not guilty.

(d) An order under rule 11 (b) dispensing with the attendance of an accused shall not affect his right of being represented by a pleader at any stage of the trial.

(e) Notwithstanding the absence of any or all of the accused whose attendance has been dispensed with under rule 11 (b), the Commissioners may pass any finding, sentence or order which might be passed by them in the presence of the accused.

Conduct of prosecution.

12. Any public prosecutor, any Police Officer of or above the rank of Court Inspector, and any person appointed in this behalf by the Local Government or by the Superintendent and Remembrancer of Legal Affairs may conduct the prosecution of any case before the Commissioners.

Execution of sentences.

13. When any sentence is passed by the Commissioners, they shall, in causing the sentence to be carried out, observe the procedure prescribed for a Court in Chapter XXVIII of the Code of Criminal Procedure.

Successor in office to the Commissioners.

14. For the purpose of section 389 of the Code of Criminal Procedure, the District Magistrate of the district in which the trial took place shall be deemed to be the successor in office of the Commissioners.

Detention and remand.

15. (a) The Commissioners may detain in custody any accused person brought before them for trial.

(b) Any District Magistrate shall have power to remand to custody any person in respect of whom an order has been made under sub-section (f) of section 3 of the Act until such time as the Commissioners order that the accused shall be brought before them for trial.

Forms.

16. The forms prescribed in the Fifth Schedule to the Code of Criminal Procedure may be used, with such changes as may be required in each case, for the proceedings of the Commissioners.

Deposit of records.

17. The records of cases tried by Commissioners shall be deposited in the record-room of the District Magistrate of the district in which the trial is held.

H. C. V. PHILPOT,

Secy. to the Govt. of Bengal.

The following provisional Census Tables, issued by the Superintendent of Census Operations, Bengal, are published for general information :—

IMPERIAL TABLE V.—Population of towns by district, religion and sex.

This table corresponds to imperial table V of 1921. The urban population shown in imperial table IV according to a distribution by the size of the towns in which it lives is here shown by religion and sex distributed according to districts. The districts are shown in the same order as throughout the tables. Towns are arranged within districts in the order of the subdivisions and police stations in which they lie as given in the Civil List and within police stations in the order of their size.

2. The table contains figures for 143 towns of which 123 are municipalities and are not distinguished in the table. Of the 20 towns which are not municipalities those which are cantonments are marked with a dagger (†) and the remainder are marked with an asterisk(*). The corresponding table of 1921 showed figures for 135 towns. Of these towns three (Bolpur in Birbhum district, Buxa in Jalpaiguri district and Gopalganj in Faridpur district), not being municipalities, are no longer counted as towns owing to their small population in 1921 and the subsequent abolition of Buxa cantonment and three (Maniktola, Cossipore-Chitpore and Garden Reach in the 24-Parganas) have since been included within the Calcutta municipal area. Figures are shown for eleven new census towns Burnipur (Burdwan), Contai (Midnapore), Dum-Dum (24-Parganas), Feni (Noakhali), Gauripur (Mymensingh), Kalimpong (Darjeeling), Kulti (Burdwan), Lalmonirhat (Rangpur), Naugaon (Rajshahi), Ondal (Burdwan), and Siliguri (Darjeeling) of which Dum-Dum (24-Parganas) and Gauripur (Mymensingh) are municipalities. In addition cantonments (now only three in number viz., Barrackpore, Jalapahar and Lebong) are shown as separate towns and not as being included in the adjacent municipalities. For comparison with the figures in previous reports the cantonment figures should be added to those shown in this table for the adjacent municipalities and figures for Dum-Dum, now a municipality, to those for North Dum-Dum.

3. Figures for coolie encampments shown in column 22 of imperial table III are included in this table in the figures for the proximate town.

4. The following table shows the distribution of the military and civil population within the three cantonments :—

Name of Cantonment	Population.					
	Military			Civil.		
	Both sexes.	Males.	Females.	Both sexes.	Males.	Females.
1	2	3	4	5	6	7
Barrackpore	2,061	1,078	383	8,921	5,324	3,597
Jalapahar	155	87	68	563	334	229
Lebong	127	95	32	437	257	180

The military figures are those obtained from the census of the strictly military area (including officers' lines) and it is possible that the figures for civil population consequently contain a certain number who should properly be reckoned as military. *Per contra* the military figures probably include not only the families of military officers and other ranks but also such persons as the inhabitants of the servants' lines in military quarters who are in some cases civilians. In addition to the figures given above the following figures are taken from the census of the areas occupied by military forces in Fort William, Ballyganj and Alipore, and are liable to the same comment as those for the cantonments :—

Area.	Population.					
	Military.			Civil.		
	Both sexes.	Males.	Females.	Both sexes.	Males.	Females.
1	2	3	4	5	6	7
Fort William and Maidan	2,733	2,325	408	350	336	14
Ballyganj	234	108	36
Alipore	1,057	882	175

5. The figures for Hindus include the following persons returned as Brahmos :—

IMPERIAL TABLE XX.—Summary figures for districts.

No table corresponding to this was published for Bengal in 1921. It resumes in a summary form information given at length elsewhere. For divisions, districts, cities and states as now constituted it gives from imperial tables I and II figures of area with population and density in 1921 and 1931 and variations from 1911 to 1921 and from 1921 to 1931. It also gives a summary distribution by religion. For the sects included within the religious groups here given and for the religions not separately shown details are given in imperial table XVI with its supplement and title page.

Details for smaller areas than are shown in this table are given in provincial tables I and II.

PROVINCIAL TABLE II.—Population of Thanas, etc., by Religion, Sex and Literacy.

This table corresponds to provincial table II of 1921. The figures for total population, however, do not appear in the present table and are to be obtained from provincial table I. On the other hand figures by sexes have been given so far as available for literates of each religion shown and the total numbers literate in any language have been shown under three agegroups. The ages are shown to the nearest birthday.

2. As in 1921 the table shows figures for each division, district, subdivision, revenue thana (with the reservation noted in paragraph 5 below) and the area under the jurisdiction of each police-station. An innovation has been made in the addition of figures for each municipality and census town which are shown (where the area itself is not a police-station) in italics within the police-station in which these places geographically fall or principally fall. Footnotes given in provincial table I but not here repeated indicate the approximate distribution of the population where a census town falls within the geographical area covered by more than one police-station.

3. Figures for literates given against the name of districts and larger areas include persons of all religions. Figures of literates given for the smaller areas comprising districts do not add up to the district totals owing to the exclusion from them of details for literates of the religions shown below which were not separately extracted from the census schedules.

Name of district.	Name of religion for which figures of literates are not available in subdivisions and smaller areas comprising the district shown.	Name of district.	Name of religion for which figures of literates are not available in subdivisions and smaller areas comprising the district shown.

Secy. to the Govt. of Bengal.

The following provisional Census Table, issued by the Superintendent of Census Operations, Bengal, is published for general information :—

IMPERIAL TABLE XVII.—Caste, tribe, race, nationality or Muslim social group.

This table corresponds to imperial table XIII of 1921, but for reasons of public economy there has been some modification of the principle on which groups shown have been chosen. Amongst Muslims only 3 groups are distinguished : these are (a) 'Mumin' (Jolahas), some of the leading men amongst whom desired that separate figures should be presented for their group ; (b) Sayyads; and (c) Others : figures for these groups are to be sought as subsidiary details to the total of Muslims given as group No. 106 in the table. Other groups than Muslims are mainly Hindu castes. In 1921 details were given for all castes having or approaching 1 per mille of the population and further details were given in an appendix to the table for groups only found in certain parts of the province. On the present occasion sorting for Hindus was confined to those groups forming 4 mille of the population in 1921 unless they were of the 'depressed classes' or were included for some other particular reason, e.g., the Rajputs and Malis added at the direction of the Census Commissioner. Hill tribes and groups of aboriginal derivation, whether completely or partly or not at all hinduised were also included and appear in the table. The restricted sort for this table results in the omission of particulars for the following groups shown either in the table or in its appendix in 1921. Muslim groups are distinguished with an asterisk.

2. An innovation is the presentation of figures for those who gave no return of caste—these figures include not only outcastes and some prostitutes but also a number who repudiate the caste system or declined to return their caste upon conviction or for some other reason. For tribes professing more than one religion subsidiary figures are given for each religion returned. In addition to the name chosen to give groups their alphabetical position, other caste names are also given in brackets in some cases. All persons returned under any of these designations are included in the figures of the group although some of the names are new coinages current nowhere outside the caste claiming them, whilst others (e.g., Chandal) have probably fallen out of use entirely and were returned only to ensure that such returns if made might not be overlooked. Figures for sub-castes returned by Brahmans are given in a supplement after the table.

3. In the result the table shows figures for 48,958,198 persons in Bengal and 108,948 persons in Sikkim out of a total population of 51,087,338 and 109,808, respectively. The composition of the numbers not included in this table is given summarily below by religion and (so far as is shown in other tables) by race:

	BENGAL.			SIKKIM.

1. Jains	8,432	6,160	2,272
2. Sikhs	7,204	5,369	1,895
3. Jews	1,867	957	910
4. Parsis	1,520	897	623
5. Anglo-Indians	27,573	14,182	13,391	2	1	1
6. Chinese	1,494	1,226	268

7. Europeans and allied races	23,030	14,492	8,538	8	4	4
8. Indian Christians	100,777	52,235	48,542	225	115	110
9. Indians of indefinite belief	125	80	45
10. Christians of 'Other races'	653	339	314

The first nine groups do not come under caste divisions at all and in the case of Jains, Sikhs, Jews, Parsis, Anglo-Indians, Indian Christians and Indians of indefinite beliefs the race can be deduced from the description. Similarly most persons returned as 'Confucians' may be reasonably assumed to be Chinese as well as those specifically so returned. For Europeans and allied races details are shown by British nationality in imperial table XIX. Table XIX also gives the detailed distribution of Anglo-Indians which can moreover be found in the title page and supplement No. II to imperial table XVI. The detailed distribution by districts of Jains, Sikhs, Jews, Parsis, Chinese (both those so returned and also Confucians), Indian Christians, Christians of 'Other races' and Indians of indefinite beliefs can also be found in imperial table XVI or its supplements and title page. An analysis of all Indian Christians by racial, tribal or provincial affiliation is given for the total number in Bengal and Sikkim in the supplement to imperial table VIII and a subsidiary table to Chapter IX of the report. The only groups therefore in the above list for which no figures whatever are recorded by race, caste or tribe are Nos. 10-13. These form a total of 1,957,058 in Bengal and 625 in Sikkim or less than 384 and 57 respectively in each 10,000 of the total population.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE JUTE CROP OF BENGAL, 1932.

[NOTE.—On an average of the five years ending 1929-30, the area under jute in Bengal, to which this forecast relates, represents some 88·3 per cent. of the total area under jute in British India.]

The Preliminary Forecast deals only with the estimates of area sown and the condition of the crop at the time of publication of the forecast. The estimates of area are based on information received through the Collectors from the Revenue staff; also from Panchayets and Agricultural Officers.

Area sown in 1932.—In Bengal, returns for the present season show a total area of 1,638,900 acres, an increase of about 25,200 acres, or about 1·6 per cent. as compared with the figures for 1931.

Character of the season.—At the outset the weather was favourable for sowings in certain low-land tracts of East Bengal, but drought, which extended up till the middle of April, interfered with the progress of the operation. In North Bengal sowings commenced late in consequence. Since then conditions have been favourable for field operations and for the growth of the young crop generally. Good rainfall in the latter part of May facilitated sowings in West and parts of North Bengal.

Present state of the crop.—The present state of the crop is favourable on the whole.

Stocks.—Large stocks of old jute are reported from several districts.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

PRELIMINARY FORECAST OF THE JUTE CROP OF BIHAR AND ORISSA, 1932.

[NOTE.—On an average of the five years ending 1929-30, the area under jute in which Bihar and Orissa Forecast relates, represents about 7·6 per cent. of the total area under jute in British India.]

The present forecast deals only with the estimated area sown. It gives also a general survey of prospects, but makes no reference to the probable outturn either in percentage figures or in bales.

2. **Acreage.**—I estimate the area sown during the current and four preceding years in round numbers as follows:—

Year.	Acreage.
1928	... 247,000
1929	... 238,000
1930	... 238,000
1931	... 148,800
1932	... 157,000

3. **Weather conditions.**—In March light rain fell in Cuttack and Balasore. There was no rain in the remaining jute districts. The fall was below the normal in these two districts. In April light rain fell in all the jute districts. The fall was above the normal everywhere except Champaran, the Santal Parganas and Cuttack. In May light to moderate rain fell in all the jute districts. The fall was below the normal everywhere except Balasore. In June rain fell in all the jute districts. The fall was light everywhere except Darbhanga where it was moderate. The weather conditions are reported to be not favourable in the important districts of Purnea and also in Darbhanga owing to insufficiency of rain. Sowings are still going on in Cuttack and Balasore.

4. **District returns.**—Last year's area under jute was finally estimated at 148,800 acres. The total area under jute this year is estimated by District Officers in round number at 157,000 acres. This estimate appears to be fairly correct. The increase in comparison with last year is due to the marked fall in the prices of food-grains and also a possible expected rise in jute prices this year.

5. **Condition and prospects.**—The condition of the crop is fair.

6. **General.**—The quantity of jute which remains in the jute districts from the crops of 1931 is reported to be small, except in Bhagalpur and in parts of Purnea, where large stocks are reported to be still in hand.

The statement below compares the estimated area under jute in this province this year with the preliminary and final figures of last year:—

Bhagalpur	..	2,661,120	1,634,100	2,700	2,075	1,167	Much	Last week of April. (Normal).	The decrease in the area under jute this year is due to the present low price of the crop.
	Purnea	..	1,694,400	178,500	120,000	130,000	Much in Araria, Little in Sadar and Kishanganj.	May 1932 ..	The weather and rainfall have not been favourable. The present condition of the crop is fair. The sowings were late at places for want of timely rainfall while at others they were normal where sown in low lands. Those sown timely on high lands had to suffer for want of rains or did not germinate at all. The crop will suffer more if there be no sufficient rains soon. The increase in area under the crop is due to the marked fall in the prices of food grains (particularly paddy) and also the expected rise in the price of jute this year.

DEPARTMENT OF AGRICULTURE, ASSAM.

PRELIMINARY FORECAST OF THE JUTE CROP OF ASSAM, 1932.

[NOTE.—On the average of the five years ending 1929-30 the area under jute in Assam represents 5·0 per cent. of the total area under jute in British India.]

1. **Season.**—The weather has been generally favourable for the cultivation and growth of the crop, except in the upper districts of the Assam Valley where heavy rains have retarded the growth of the young plants. Some damage by hailstorms has also been reported in the Goalpara district. The present condition of the crop is, however, generally satisfactory and a better outturn than that of last year is expected in all the important jute growing districts with the exception of Darrang.
2. **Area sown.**—The total area under jute as estimated by the Deputy Commissioners is 107,100 acres against 99,300 acres (revised) of last year. There is an increase in area in Sylhet, Nowgong and Garo Hills, while Goalpara, Kamrup, Darrang, Sibsagar and Lakhimpur show a decrease in area, the net increase over last year's final figure being 7,800 acres.
3. **Stock.**—According to the reports of the Deputy Commissioners little jute remains in stock from last year's crop except in the districts of Nowgong and Darrang.

	Acres.	Acres.	Acres.	Acres.	Acres.			
Cachar ..	200	200	200	None ..	First week of April. Normal.	The weather has been favourable for the cultivation and growth of the crop. The present condition of the crop is good and the outturn is expected to be better than that of last year.
Sylhet ..	15,000	5,000	12,000	7,000	..	Little ..	Middle of April. Normal.	Favourable weather conditions at sowing time account for the increase in area. The present condition of the crop is fair and a better outturn than that of last year is expected.
Goalpara ..	60,000	35,300	32,700	..	2,600	A small quantity remains.	First part of April. Normal.	The decrease in area is due to the low price of jute. The weather has been favourable for the growth of the crop and the outturn is expected to be better than that of last year. Hailstorms caused some damage in places.
Kamrup ..	28,000	19,100	18,000	..	1,100	Little ..	Beginning of April. Normal.	The decrease in area is due partly to relinquishment of jute growing land by the Kumari-khata Estate and partly to the general fall in price of jute. The weather at sowing time was not very favourable but has since improved, and the present condition of the crop is good. The outturn is expected to be normal.
Darrang ..	12,600	13,700	12,200	..	1,500	About a quarter remains.	Beginning of April. Normal.	The low price of jute is responsible for the decrease in area. The weather has not been favourable for the cultivation and growth of the crop owing to drought followed by heavy rains, which damaged the crop especially in the Mangaldai subdivision. The present condition of the crop is not satisfactory and the outturn is expected to be less than that of last year.
Nowgong ..	50,000	20,400	26,400	6,000	..	Considerable jute remains.	First week of March. Early.	The increase in area is due to extension of cultivation. The weather at sowing time of the crop was not favourable but has improved since the middle of May. The present condition of the crop is fair and the outturn is expected to be better than that of last year.
Sibsagar ..	400	400	300	..	100	None ..	Middle of April. Normal.	Unfavourable weather conditions at sowing time account for the decrease in area. The weather has not been altogether favourable for the growth of the crop up to date but the present condition of the crop is reported to be generally fair, and the outturn is expected to be as good as that of last year.
Ukhlampur ..	1,000	900	800	..	100	None ..	First week of April. Normal.	The decrease in area is due to unfavourable weather at sowing time. The weather has not been favourable for the growth of the crop and the outturn is expected to be worse than that of last year.
Baro Hills (Plains)	5,000	4,300	4,500	200	..	None ..	First week of April. Normal.	The weather has been favourable for the cultivation and growth of the crop. The present condition of the crop is good and a better outturn than that of last year is expected.

IMPERIAL TABLE XIV.—Literacy of selected castes, tribes, races and social groups by locality and sex.

This table, corresponding to imperial table IX of 1921, gives for selected groups figures for Bengal (including states) and Sikkim similar to those in imperial table XIII. The necessity of public economy has reduced the number of groups shown in the table from 89 to 41, but it has been attempted to make the table within this restriction as representative as possible. For comparison with each other and with the figures given for Muslims in imperial table XIII, particulars are here given of two Muslim social groups, Jolahas and Sayyads. The figures for Anglo-Indians and Indian Christians render possible comparisons with other communities, after eliminating the distortion introduced by the inclusion of Europeans and others in the figures of Christians given in table XIII. The table also contains figures for groups constituting the "upper classes" of Hindu society (Brahmans, Baidyas and Kayasthas) and representing the "depressed classes" (Bagdis, Bauris, Chamars, Dhobis, Doms, Haris, Jaliya-Kaibarttas, Kalus, Namasudras and Sunris), aboriginals and hill tribes (Chakmas, Garos, Lepchas, Mrus, Mundas, Oraons, Santals and Tiparas), the trading classes (Agarwalas and Shahas), artisans and functional groups (Kamars, Kumhars, Jogis and Napits), typical cultivators of West Bengal (Mahishyas), an immigrant caste of Nepal (Khambus—chosen because it was hoped that returns for this caste would be less inaccurate than those for such groups as Khas, Mangars, etc.) and a sectarian caste (Baishnab). Separate figures are given for members of aboriginal or hill tribes professing different religions. Figures for Kalus are included in imperial table XVII with those for Telis but are here given separately for comparison with former years.

2. Of the groups shown, Agarwalas mainly reside in Calcutta. Bagdis, though found throughout the whole of Bengal, are most numerous in the Burdwan and Rajshahi Divisions. Mundas, Oraons and Santals are principally found in West, Central and North Bengal. Chakmas and Mrus are practically confined to Chittagong and the Chittagong Hill Tracts, Garos to Mymensingh, Khambus and Lepchas to Darjeeling and Sikkim and Tiparas to the Chittagong Hill Tracts and Tripura State. Anglo-Indians are rarely found outside Calcutta and other towns. Other groups are dispersed in considerable numbers throughout all parts of the province. More detailed particulars of local distribution are given in imperial table XVII.

3. The statement below shows by sexes for 21 of the groups given in the table, the total population aged 7 and over. For these groups the total figures of literates in the table exclude those so returned who are under 7 years of age.

4. For the remaining 20 groups shown in the table but not included in paragraph 3, the figures of literates in the table include in addition to those aged 7 and over also those aged 4–6 years except in the districts of Rajshahi, Dinajpur, Jalpaiguri, Rangpur, Bogra and Pabna, the Siliguri subdivision of Darjeeling and Cooch Behar State. For comparison with the figures given in the statement above, a supplement printed below the table shows for these 20 groups the total population and literates aged 7 years and over in the districts just mentioned.

5. A further analysis of Indian Christians by age-group and sex is given in the report volume, where they are further divided according to their racial, tribal or provincial affiliations.

6. The total population given for the groups in the table differs in some instances from that shown in imperial table XVII. The reason for this is that the figures in imperial table XVII include a number of doubtful returns classified after the preparation of this table had been undertaken.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are (1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the actuary to the Government of India, and his report discloses very favourable results. RESOLUTION—No. 8996L.R.

Read—

The Survey and Settlement Reports for the year ending 30th September 1931.

The main traverse work consisted of 583½ square miles in Hooghly and post-pointing traverse for air survey of

740½ square miles in Rangpur. Traverse was also done of scattered areas totalling 421 square miles during the year. In Hooghly, work was delayed by frequent sickness among the field staff. Other work done by the Survey Department included demarcation, comparative mapping, and reproduction of maps. Though the number of sheets printed was less than usual it came to over 737,000.

2. Major settlement operations were in their closing stages in the districts of Murshidabad-Birbhum, but were in full swing in 24-Parganas, Burdwan-Hooghly and Malda.

3. In Malda the area under cadastral survey (Block B) was 781 square miles. Owing to dense jungle along the banks of the rivers Mehananda and Kalindri and the mango gardens, which cover over

32 square miles in this block, only about 62 per cent. of the area could be done by air survey instead of 90 per cent. as originally intended.

4. The total area in the province for which a record-of-rights has been completed is 53,797 square miles out of 65,094 square miles to which the Bengal Tenancy Act applies. Over a million copies of printed records (khatians) were sold during the year, and the receipts for sales of maps, plot indices and khatians together came to Rs. 82,632.

5. It is satisfactory that out of the total recovery of Rs. 16,41,595 only Rs. 2,90,139 was realised by coercive measures and the balance represents voluntary payments.

6. Mr. L. R. Fawcus, I.C.S., was in charge of the Department till 9th January 1931, when Mr. J. B. Kindersley, I.C.S., took over and remained in charge for the rest of the year. The Governor in Council has much pleasure in acknowledging the efficiency and care with

which the Departments of Survey and Settlement have been managed in the year under review. His Excellency in Council is also pleased to direct that the good work done by the Survey Officers, Mr. I. Newton and Major C. B. Sexton, the Settlement Officers, Messrs. B. E. J. Burge, M.O. Carter, P. D. Martyn, K. A. L. Hill, S. N. Roy (II), Rai Bijay Bihari Mukharji Bahadur and Rai Romesh Chandra Sen Bahadur and the Cadastral Charge Officer of Burdwan, Mr. A. Hughes, as also by the other officers mentioned in the concluding paragraphs of the Survey and Settlement Reports be recorded.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*.

CALCUTTA, THE 16TH JULY 1932.

RESOLUTION—No. 9057 L.R.

Read—

Letter No. 83 M.C.T., dated the 1st June 1932, from the Commissioner of the Rajshahi Division, submitting a final report on the flood of July and August 1931 in the district of Bogra.

The report deals with the operations for the relief of distress caused by the flood which began in the Bogra district on the 24th of July and lasted for twenty-three days. The district consists mainly of two distinct areas—the western portion known as Khair area and the eastern portion known as the Pali. Winter paddy is the only important crop grown in the Khair area and the principal crops of the Pali area are jute, aus and aman rice. Boro and Katar paddy and rabi crops are also grown in this area. The economic condition of the people of this area was not good, owing to the fall in the price of jute and other agricultural produce since 1929. Distress already prevailed in the eastern part of district, owing to the fall in prices and the flood of 1930, which seriously damaged much of the aman paddy. The flood of July and August 1931 was the severest on record and appears to have been due to the fact that the Jamuna or Brahmaputra was in high flood at a time when the local rainfall was very heavy. During the month of July there were 20.25 inches of rainfall as against 9.36 inches and 9.09 inches in the two previous years. The highest level was reached on the 1st August 1931 and it was 3½ feet higher than the water level of ordinary years. Only the eastern portion of the district known as the Pali area was affected by

the flood. Out of the total area of the thanas concerned, viz., 421,064 acres with a population of 562,726 an area of 278,170 acres with a population of 383,153 was seriously affected. About half the aus paddy had been reaped before the flood, but a portion of this was also damaged. Newly transplanted paddy and seedlings were destroyed by submersion and most of the ordinary broadcast aman paddy was either destroyed or severely damaged. Much of the jute, however, survived the flood. Katar aus paddy was sown extensively after the flood and reaped in November, and it was possible to retransplant aman paddy in a considerable area. A few cattle were lost and a number of huts collapsed within the jurisdiction of Dhunat and Sariakandi police-stations. Though there was no loss of human life directly due to the floods, an epidemic of cholera broke out subsequently in the flooded area. The epidemic was confined to an area of 18 miles by 12 miles, and the measures taken checked the spread of the epidemic and brought it under control. Twenty Sanitary Inspectors and one doctor of the district board worked under the control of the District Health Officer. Four doctors were also sent to the area by the Public Health Department. Sixty-eight thousand persons were inoculated.

2. The Hon'ble Sir B. B. Ghosh, Member of the Executive Council, with the Member, Board of Revenue, and the Secretary of the Revenue Department visited part of the distressed area on the 8th September 1931. The Divisional Commissioner and the Director of Agriculture also visited the affected area.

3. Relief measures were promptly undertaken by Government and the district board. The main forms of relief consisted of :—

Gratuitous relief.—Gratuitous relief was given at first by the district board. Gratuitous relief was distributed by Government through 33 distributing centres. Relief was given chiefly in the shape of cash and doles of rice and cloth. The amount spent through all the sources amounted to Rs. 7,520, out of which Government contributed Rs. 1,297, the balance being contributed by the district board and by private persons. Private organisations did good work and co-operated with the

Government relief committees. Acute distress continued up to the harvesting of Katar aus and aman paddy, after which the situation improved and further distribution of gratuitous relief was not necessary.

Test relief.—Test relief works were started after the flood water subsided. The works consisted of the construction and repair of roads. About 24 miles of new katcha roads were constructed and about 51 miles of old roads were improved by employing 43,549 units at a total cost of Rs. 9,056. The entire amount was advanced by Government.

Agricultural loans.—A sum of Rs. 1,00,000 was sanctioned by Government for Agricultural loans. Out of this a sum of Rs. 99,299 was distributed by the District Officer during the period from August 1931 to March 1932.

4. The Governor in Council is satisfied that the measures taken for relief of distress were successful and adequate. He desires to record his appreciation of the good work done by Rai Anath

Bandhu De Bahadur and Mr. S. N. Roy, I.C.S., the former Collectors of the district, Rai A. K. Mukherji Bahadur, the present Collector, Babu Jagadish Chandra Bardhan, Maulvi Hashmutullah, Babu Monaranjan Das Gupta, Maulvi Khondkar Abdul Latif and Babu Birendra Kumar Bose, Sub-Deputy Collectors, Babu Sasanka Sakar Chakrabarty, probationary Sub-Deputy Collector, Babu Prafulla Chandra Banerji, Manager, Jaipur Government Estates, the District Health Officer and the local relief committees. He also desires to acknowledge the readiness with which the chairman and the vice-chairman of the district board and the District Engineer co-operated with the Collector.

ORDER—Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

H. C. V. PHILPOT,

Secy. to the Govt. of Bengal.

(a) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the District Board has taken or has agreed to take, in order to make good the deficiency.

(b) Possible means on increase in the revenues of the District Board.

(c) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(d) Any explanations in regard to receipts and expenditure to show the true financial position of the District Board when such position is otherwise than the ordinary surplus would indicate.

There will be enhancement of income in the shape of increased cess receipts in the near future when the settlement operations are final, leaving surplus, sufficient annually, for repayment of the loan in yearly instalments.

Increase in cess revenue with the revaluation consequent upon the settlement of the district records, that has advanced much already.

Balance unpaid—the full amount of the loan, as the first yearly instalment falls due on 20th September 1931.

A loan of Rs. 25,000 with a currency of 10 years for constructing tube wells has been sanctioned by Government in their notification No. 2922P.H., dated 2nd December 1931, on the terms and conditions promulgated under Bengal Government circular No. 2938-42P.H., dated 30th October 1929, to all Commissioners of Divisions.

Rules for the examination for Cadetships and Engineer Apprenticeships in the Royal Indian Marine, October 1932.

1. A cadet or apprentice* must be either

2. A candidate must have attained the age of seventeen and must not have attained the age of nineteen on the first day of May 1932.

3. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Royal Indian Marine. 5. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

GOVERNMENT OF BENGAL.

Legislative Department.

NOTIFICATION.

No. 2026L.—19th July, 1932.—With reference to the footnote at the end of the Report of the Select Committee on the Bengal Municipal Bill, 1932, published with notification No. 1692L., dated the 27th June, 1932, in Part IV of the *Calcutta Gazette* of the 30th June, 1932, it is hereby notified for general information that Babu Jitendralal Bannerjee, M.L.C., has subsequently signed the said Report subject to the following minute of dissent.

Minute of Dissent by Babu Jitendralal Bannerjee, M.L.C., to the Report of the Select Committee on the Bengal Municipal Bill, 1932.

I regret I cannot agree with the majority of the Select Committee on the following amongst other points :—

As regards constitution—

(1) I do not see why there should be any provision for the nomination of members in the municipalities of the future. The Bill seems to proceed upon the supposition that there must be nominated members for all time to come, and the question is one of percentage and proportion only. But I beg to submit that this is far from being the case. In representative institutions claiming to be more and more democratic in their character, it is an anomaly that there should be any nominated member at all. The anomaly might have been justified by the peculiar circumstances prevailing 50 years ago : but it would be a sad commentary upon the progress of local self-government if it were contended that the passage of 50 years has made no difference and that the time for removing the anomaly is not yet ripe.

(2) The new clause 17A which gives Government power to make provision for the special representation of minority communities is objectionable and ought to be deleted. The clause is nothing more or less than introducing the pernicious principle of communal representation by the back-door ; and whatever may be said about that principle in the region of high politics, I fail to see how there can be any question of special or communal interest in the administration of a municipality.

(3) Apart from certain special qualifications, the franchise has been placed upon a rating basis, pure and simple. This may have the merit of simplicity, but it will have the effect of shutting out a large section of the occupiers of rented houses. I suggest, therefore, that the franchise should be broadened and placed upon a rental as well as a rating basis. As clause 21 stands at present, the labouring population in the mill areas will be altogether excluded from the franchise.

As regards control and supervision—

(4) The powers of irritating interference in the details of municipal administration now possessed and exercised by District Magistrates and Divisional Commissioners should be entirely taken away from the hands of these officials. Tentative efforts in this direction have been made by the Select Committee : but such efforts have not been far-reaching enough nor have they been made upon any ground of clear and consistent policy. My contention in respect of this matter is that the municipalities and other self-governing institutions of the future should be placed under the direct and immediate supervision of the Ministry or Board of Local Self-Government, as the case may be, and it will thenceforth be the duty of this Board to exercise the most minute, jealous and vigilant scrutiny possible over the affairs of such institutions.

In this connection I think it my duty to add that the power of qualified supersession which the Bill gives to the Government in cases of proved incompetence and abuse are all to the good and should be fearlessly exercised for improving the standard of municipal administration.

As regards the functions of municipalities—

(5) Clause 97 must be altered so as to make it perfectly clear that there are some basic and elementary duties (say, in respect of drainage, sanitation and road-cleansing or water-supply) which are imperative and obligatory— which every municipality must perform or it has no justification for its existence. Otherwise, as the clause now stands, it has a most ridiculous effect ; it almost reads as if the primary duties of a municipality are to raise taxes and keep up an establishment while, as for the so-called municipal services, they are all optional and permissive and may be left to take care of themselves.

Among subsidiary matters, the following change seems to be essential :—

(6) The Commissioners of a municipality shall, as a matter of right, have access to the records of the municipality—of course, within hours to be fixed for the purpose so as not to dislocate the ordinary business of the office.
